are serious about saving water, one of our most precious natural resources!

← LOW-FLOW AERATOR

Low-flow aerators on our sinks **save 3 million gallons of water every year.** That's enough to fill over **60,000 bathtubs!**

Installing low-flow aerators in your home could **save 2,500 gallons** of water per year. **They cost less than \$5** and can **be installed by hand in 5 minutes!**
